

Hi Susanne,

I can't begin to thank you for the presentation you gave to my group. I got the surveys back today from the team about the meeting and there were so many people that said your presentation was the best of the meeting. You started me off on the right foot with this team and I will always be grateful for that. Today they all wore the shirts I gave them in order to show me they were unified behind me and gave me a standing ovation for the meeting. How great is that??

Thanks for everything! I would love to work together with you again in the future.
