

Evolution of the “She-Sees”

She sees a world of possibilities  
Brand new faces  
Brand new spaces  
A fresh new perspective

She sees what's its like to get a good nights sleep  
The magic in each moment  
The newness of each day

She-sees growth  
Proud determination  
What's it like to work with wild abandon

She sees that laughter is contagious  
There's sunshine in a smile  
That goodness can be gathered  
And happiness harvested

She sees the power in silence  
Delight in lingering  
The tranquility of being alone  
And that serenity is something worth seeking

She sees that life has less to do with perfection  
and more to do with perseverance.  
That life is perfectly imperfect  
And that's okay.

She sees that a single step can set her on a new path  
That a small step can be the start of something big

She-sees that different actions  
Cause different reactions  
And that sometimes once is enough

She sees that big things come in small packages  
That she can have more  
Or make more with less.

She sees a glimpse into her greatness.  
The promise for her future.  
That energy is often echoed  
For generations to come.

She sees that sometimes a distraction plan  
Is better than an action plan  
She sees that life can be lived out of the box  
And that she never really needed the box anyway

She-sees the value of friendships  
That with enough trust she can open her heart  
By embracing our differences we are somehow the same

She-sees why she worked so hard  
Why she held on  
And why she fought through the pain  
She sees what it means to overcome

She sees that every moment counts  
When there are miracles yet to manifest  
She is grounded in grace  
And knows what it means to let go

She sees the arms of an angel  
Reaching out to touch the hands of a child

What do you see?  
A world full of possibility  
Life is electric!

Dr. Susanne Gaddis, PhD, known as The Communications Doctor, is an international professional speaker, communications consultant, and executive coach. To contact Susanne, call 919-933-3237 or e-mail: [gaddis@communicationsdoctor.com](mailto:gaddis@communicationsdoctor.com)
